Falling

Place

Falling Place

Ever feel like you are **FALLING** and don't know how to stop? It is a normal feeling of college students, especially if you are jumping **INTO** numerous commitments. But while you may feel that you are falling, it is in a positive direction. Here at **Eckerd** there have been a lot of questionable encounters with a wrong fall. However, all of the falls are placed into the right hands, and this year a lot of ends were tied as the student body began to settle in once again and fall into **PLACE**.

Even though campus didn't close, many students chose to get out of the flooding conditions of campus. * The pond by the gym turned into a lake as the rain kept falling. Luckily, the durans stayed dry this year. * A rainbow colorfully breaks through the clouds, shedding a new hope on the dark and dreary day. One benefit of hurricane season is the rains keep vegetation a crisp green.*

The year was a great one for the Student Liaison Committee and the Academy of Senior Professionals and Eckerd Students. Charged with promoting student/ASPEC interaction, the committee, assisted by its student members of Nancy Bernhardt, Erica Chaney, Shannon Ellison, Jennifer Kingsley, Brian Redar, Garvin Sealy, and Paige Speise, provided a variety of activities and dinners for all to enjoy.

More than EC

During Autumn Term ASPEC members participated in a

number of functions, including airport pick-up for students, meeting students and parents at registration, playing pirates, and assisting with the Hometown Dinner. Members were also involved with "Into the Streets" to increase community service awareness.

Several large gatherings took place at Lewis House. Students unable to travel at Thanksgiving enjoyed a home-cooked American meal complete with pumpkin pie. A large international group attended a career night in early April. Shannon Ellison and Paige Speise worked with Ginny Oppenheimer and Betty Belting of ASPEC to organize a cookout with ECOS. Ford Scholars and ASPEC were entertained with a candlelight dinner in February. All of these events provided an opportunity for Eckerd students to meet many ASPEC members and converse about career and other interest choices. These activities definitely lead to future contacts. A showcase of French films was also a regular feature at Lewis House. With an opening of "Madam Rosa," students continued to meet at Lewis House on Thursday nights for this cultural experience. Other events during the year included game nights, study breaks, and bake night. ASPEC members also attended numerous campus events such as Swing Night, where they jitterbugged the night away, and Subs, Soccer, and Sun, where the largest turnout of ASPEC members at an Eckerd event occurred.

A significant event took place in the spring when students, professors, and ASPEC members took part in a clean-out and new planting of native greenery around Lewis House. Finally, to increase future interaction, a program has been developed with CALA to open opportunities for internships with ASPEC members.

Learning the Lands

Every year Eckerd College students celebrate their diversity by hosting a Festival of Cultures. With such a high percentage of international students the event has been highly successful for sharing various heritages. Dorm Sweet Dorm

Every room at Eckerd is decorated to perfection, whether it be a suite in Omega or a single in Dante. The taste may vary, but each student spends about nine months in their dorm rooms. Whether its with friends hanging out and partying or researching the web for their next paper, a students room is their home. No matter what adorns our walls or what sits on our desks, Eckerd students are comfortable in every way, shape, and form.

A MAJOR REASON FOR STUDENTS TO attend college is FOR THE academic aspect; MAJORS AND career goals play Large roles IN CHOOSING a SCHOOL. ECKERD ALSO OFFERS OTHER options THAT HELP STUDENTS get direction. EACH STUDENT HAS a MENTOR WITHIN their MAJOR to HELP guide THEM during their years HERE. ALSO, FRESHMEN are required to take WESTERN HERITAGE JUST AS SENIORS MUST take QUEST FOR MEANING. THESE extra steps ECKERD takes ENSURE THAT STUDENTS WILL NOT ONLY gain practical experience FOR life AFTER college, but they WILL ALSO HELP the STUDENTS FALL INTO place WHEN they become ENCOMPASSED IN ALL aspects OF STUDENT life.

FROM WHGC TO QFM CHOOSING A PATH

Imagine trying seven different majors, after having come to Eckerd certain you were going to be a marine biology major and then realizing it was not for you. Ruth Costley, a sophomore here at Eckerd, came to this college for the same reason as the majority of freshmen, to study marine biology. She had wanted to study in this field because she loves the ocean, and what better place to study! But then she realized she hated the amount of time required for labs and was repulsed by the idea of dissections in some of the required lab classes. She has since considered seven other majors, including math, physics, art, psychology, and is currently a marine geophysics major. Her story is typical of many students who come here to study marine biology, and then opt to change majors.

Yet there are many other majors here at Eckerd. Freshman Tasha Lailor is studying psychology, which she chose to major in after having taken a class in it in high school, which she felt was both interesting and fun. She also feels that it will be a rewarding career, working with people and trying to figure out how the mind works. Many choose their majors based on classes they have taken or their ideas about what a career will be like. Senior Jolie Santiago became a computer science major because there is a lot of job security in that field and she likes analyzing things. Junior Randy Cline is studying history because he likes learning about the decisions that have been made in the past and how they have affected the world today and what their effect may be in the future.

Choosing a major is often difficult, but in the end, students find their path and fall into place.

DRESS FOR SUCCESS JOB INTERVIEWS

The models sit at a "lunch" table during casual Friday. Khakis or blue jeans is a common question where casual Friday is observed. photo by Adrian Stewart

After you finish all of your classes, pass all of your comprehensive exams, and pay off your student account there is still one thing left to do: FIND A JOB! The Career Services office is behind each student 100% of the way during the process. Whether it is bringing in companies to do interviews or holding resume writing sessions, a student has every opportunity to find a job.

One unique forum this year was the Dress for Success workshop/fashion show. Held in Fox Hall, students were on the catwalk strutting their business looks and also showing what not to wear. They also demonstrated the proper attire for casual Fridays. This event helped students to see first-hand how to dress for an interview and in the business world.

Also held each year is the Career Fair. This major event brings in businesses from the Tampa Bay area to showcase their open positions and start recruiting. Most students bring their resumes and start the job hunt. Companies at the fair range from local resorts to the FBI and Secret Service. Bringing the companies to the students is an effective way to showcase openings.

From how to eat and how to dress to building an effective resume, the Career Services office does their best to make every opportunity available for any student looking to enter the workforce.

REQUIRED COURSES MAKING THE GRADE

Life is all about "falling into place." We all spend our lives learning and hopefully finding what it is that makes us feel like we have fallen into place. Life is about finding the friends, lovers, peers, and career that makes us feel content. Eckerd helps you find your place in life. Believe it or not, many of the requirements at Eckerd are helpful in your quest to fall into place.

Many of the requirements for graduating from Eckerd are academic based, but others are based on other important aspects of learning, the social and cultural aspects. There is the overall requirement of 32 courses but this is broken down into specific requirements depending on the major. Out of those 32 courses you must complete perspectives from various areas of study, such as, aesthetics, global, and environmental. This requirement requires a student to take courses he or she may not otherwise take. Although this may seem unnecessary, it can really help you realize what field you would like to study. Imagine knowing nothing about Psychology, for example, but after taking the course as a perspective you realize you want to major and pursue a career in Psychology—this happens more often than you may realize.

In addition to the course requirements there are the four short terms: Autumn Term and three Winter Terms, which can expand your outlook in many different areas. Many students also take the opportunity of winter term to study abroad. Many students dread the writing portfolio requirement but others would argue it beats English 101 any day.

There are also College Program Series requirements, which are arguably worthwhile. Many students enjoy the lectures and events while others would rather not attend. Nonetheless, it gives you a chance to learn about different topics from professionals. There are also cultural and social events incorporated into the College Program Series, such as, holiday events, music, and art events.

These requirements combine to help you choose the path that interests you the most, in essence, find your place.

Learning styles are the way you learn best. But do you know which category you fall under? Find the statements you agree with:

1. I prefer to hear a book on tape rather than reading it.
2. I prefer reading to hearing a lecture.
3. When I am alone, I usually have music playing or hum or sing.
4. I can always tell directions like north and south no matter where I am.
5. I love to write letters or in a journal.
6. When I talk, I like to say things like, "I hear you, that sounds good or that rings a bell."
7. I love working with my hands and building or making things.
8. When others are talking, I usually am creating images in my mind of what they are saying.
9. Without music, life isn't any fun.
10. When looking at objects on paper, I can easily tell whether they are the same no matter which way they are turned.
11. I usually say things like, "I feel, I need to get a handle on it, or get a grip."
12. When I recall an experience, I mostly see a picture of it in my mind.

1, 3, 6, 9—you are an **AUDITORY LEARNER**. You learn best by hearing information.

4, 5, 7, 11—you are a **KINES-THETIC LEARNER**. You learn best by doing things that apply information.

2, 8, 10, 12—you are a **VI-SUAL LEARNER**. You learn best by seeing information, whether written or pictured.

THE WORLD IS OUR CAMPUS MANY PLACES

Eckerd students enjoy the opportunity to explore the world, discovering more about themselves and other cultures in their journeys. The students and faculty come from many diverse places, and with the help of the International Education Office, they experience many new places, hence the phrase "The world is our campus." And the world really is our campus, with students travelling to six of the seven continents, the destinations ranging from tropical destinations such as Madagascar and the Galapagos to more civilized areas such as London and Rome, and there is even a semester at sea. No matter what the destination, students experience a new way of life. Here is a short list of foreign customs:

SAYING HELLO

In most countries other than America, the act of saying hello requires more than a simple handshake. In Japan, you need a formal bow. If you think this seems awkward, try France, where the usual greeting involves a kiss on both cheeks—whether you're a girl or a boy.

WATCH YOUR HANDS

Hand signals can be just as informative, and offensive, as the spoken word. On a visit to Australia, former president George Bush raised his hands in the "V for Victory" salute. Little did he know that the sign was considered very offensive in Australia. In Italy, tugging on the ear is also an offensive gesture.

BE CAREFUL AS YOU EAT

Certain habits at a dinner table, such as burping, might seem rude in America. But in Japan, a burp is considered a compliment for a good meal. Also, in Saudi Arabia, the way you serve a guest a cup of coffee determines whether you want the guest to stay or leave.

Unique in its learning environment, Eckerd offers many innovative teaching techniques. One of these strategies is the senior year Quest for Meaning course. This class, comparable to the freshman year Western Heritage, is required of all seniors before graduating.

One component of the class is the fall semester Festival of Hope. During the fall students form small groups. These groups then volunteer 40+ hours of community service. The Festival is their chance to show the Eckerd Community what they have learned during their experiences. Volunteering ranges from beach clean-ups to working with underprivileged kids to helping victims of abuse and rape. Needless to say our students are vital members of the St. Petersburg community during this course and most continue their service during the remainder of the year.

The Festival of Hope is an excellent environment for underclassmen to gain knowledge of community service, which is highly encouraged within Campus Activities and Campus Ministry. Not only is the Festival a College Program Series, but it is an opportunity to see what fellow classmates are involved in and to learn of numerous options to serve.

ECKERD COLLEGE WOULD NOT EXIST WITHOUT ITS SPECTACULAR AND DIVERSE STUDENT BODY. STUDENTS LIVE, EAT, GO TO CLASS, AND HANG OUT TOGETHER, MAKING FRIENDS FOR LIFE. RESIDENCE HALLS PROVIDE A CLOSE KNIT FAMILY IN WHICH EACH STUDENT PLAYS A ROLE. WHETHER IT IS COMFORTING A STUDENT AFTER A BAD TEST OR ORGANIZING AN EVENT, STUDENTS MAKE A NAME FOR THEMSELVES. OUR STUDENT BODY SAYS MORE ABOUT ECKERD THAN DOES ANYTHING ELSE. WE MAKE THE CHANGES HERE, AND WE ARE THE ONES WHO LIVE HERE 24/7. WE MUST DEFINITELY FALL INTO PLACE AS FRIENDS IN ORDER TO CAPTURE THE MEMORIES OF ALL OUR FUN TIMES!

The women's basketball team gathers on the bench during a time-out for an inspirational chat from Coach Shultes to finish up their game. The big time Sunshine State Conference meant big time challenges on the court for the Lady Tritons.

The Eckerd College Cheerleaders spark the energy of the crowd during a home basketball game. The squad frequently threw spirit items into the crowd to get everyone on their feet and cheering.

A MAJOR COMPONENT OF COLLEGE LIFE IS ATHLETICS. ECKERD IS NO DIFFERENT THAN THE OTHERS, WITH SPORTS OCCURRING ON THE WATER, ON THE ATHLETIC FIELDS, AND IN THE GYM. RECENTLY ECKERD HAS SEEN AN INCREASE IN THE HONORS GIVEN OUR TEAMS: THE TRITON SAILING TEAM HAD A RECENT APPEARANCE AT NATIONALS, THE MEN'S VOLLEYBALL TEAM IS GOING FOR A DIVISION I NATIONAL TITLE AFTER WINNING DIVISION II LAST YEAR, AND THE MEN'S BASKETBALL TEAM HOSTED AND MADE AN APPEARANCE IN THE DIVISION II SOUTH REGIONALS. THESE ACCOMPLISHMENTS ARE NOT POSSIBLE WITHOUT THE TEAM UNITY THAT ALLOWS THESE GROUPS TO FALL INTO PLACE.

Gaining Goals

In only their third full season in the Sunshine State Conference, the Eckerd College women's soccer team displayed the tenacity and maturity of veterans. Scoring 10-6-1 in the regular season and 4-2 in conference play, the Tritons were able to parallel opponent's talent and ability in a conference that included six nationally ranked teams.

"We came across with a stronger team this year," remarked center midfielder Cady Dolan. "We had more in-depth players who were committed to the challenges."

"As the season progressed, we kept getting better and better," stated

midfielder Lori Rich. Halfback Monica Carrasco replied, "Being the underdogs, we actually rose above everyone's expectations."

"The players really committed themselves," said Head Coach Siggie Nagele. "Team morale was wonderful. Everyone got along well both on and off the field."

This camaraderie and dedication brought the team closer than ever before to the performance levels of such conference crushers as Lynn and Barry.

"We held Lynn and Barry to the bitter end," recalled Robyn Steinweg. "It took everything out of everyone playing, everyone on the bench, the coach, the fans! Those were the games that showed the true heart of the team."

Jennifer Stone speaks out about her season saying, "We met most of our goals this year and can only hope to meet all of them next season."

Dawn Delo a sophomore says "The unity and friendship of the team was strong both on and off the field. By far, this was the best season ever."

Sophomore Brooke Lacey gives her feelings on the season saying "Being a close group, next year we should be able to work together towards all of our goals and have fun."

Kathy Atkins gives her two words on the season "We were pimpin' this year and I look forward to the ride next year!"

Scoring Success

A difficult year for the Tritons still proved memorable. "The season had its ups and downs, and in between," stated Coach Jim DiNoble. Although having a record of 7 - 12 in the regular season and 3 - 4 in the conference, the men's soccer team moved up a spot in the conference from last year. Injuries hit hard and key players were out, but the men's soccer team kept up good morale and continued fighting. "There was good leadership. Everybody found their role," said Coach DiNoble.

"Our conference is tough. Every game is a challenge," confessed

Coach DiNoble. Indeed, Ekerd had a tall order to fill going up against such giants as Lynn, Barry, Rollins, St. Leo, and a host of other tough rivals.

"We had to stick together. We had to fight, and that's what we did," explained forward Andree Bitterer who was the team's lead scorer and named an all conference player for the second straight year.

High points for the season included a win over Florida Tech and some phenomenal come back wins. The men's team, down 3 - 1 to St. Leo, came back in the last two minutes of the game to tie it up and consequently won in overtime. In the final game of the season against Rollins, down 2 - 1, The Tritons rallied back to score two goals in the last two

minutes of play. "To see that comeback is just awesome. You could feel it inside you," said defensive midfielder Skip Bergren.

Dominating Defense

The 2001 Triton men's volleyball team encountered another outstanding volleyball season. In addition to bringing back thirteen players from last season and assistant coach Decorah Valier, the team also added Dexter Rogers as their new head coach. Rogers brought with him international experience from his days on the US National team.

The starting six of Jesse Blazek, Joey Cash, Jason Partington, Brandon Roth, Ricky Zager, and Randy Cline were unstoppable. Their teamwork is unmatched, and it led them to another undefeated regular collegiate season. They also won all of their major tournaments during the regular season, including the SSCVL Regionals and Championships, the Tennessee tournament, the Maryland tournament, and the Palm Beach Atlantic tournament.

undefeated the first two days of the tournament, the Tritons lost their match in three against the University of Illinois. The 9th place finish in Division I was considered a victory for the powerful group.

The Tritons second squad also had a successful season, adding to their list three remarkable freshmen. Under the leadership of captain

Andrew Costa, the team worked hard together for some excellent wins during the season. The second team also won an exhibition match against members of the United States Paralympic team.

The team is looking forward to another outstanding season next year with the loss of only three players.

TO INVOLVED ECKERD STUDENTS, there does not seem to be ENOUGH HOURS IN THE day. PRESSURES FROM academics yearn FOR our attention AS THE FOCUS IS put ON other obligations. JUGGLING activities, SOCIAL LIFE, and CLASSWORK gets STRESSFUL at times, but eventually everything seems to FALL INTO place. LUCKILY, ECKERD OFFERS NUMEROUS CLUBS and organizations that can be USED AS outlets to the stress of everything ELSE a college student deals WITH. THE SKILLS learned by participating in these extra-CURRICULARS MAKE every MOMENT WELL WORTH going above and beyond the call of duty.

Every year approximately 1600 students join each other on our Spectacular Waterfront campus. For nine months we share memories and experiences with each other. Making friendships to last a lifetime. Come the middle of May we plan our departures and say our farewells. For 1/4 of us we will be leaving the comforts of the past four years; other will return in the fall for another year of bonding and excitement. Through all of our years we have been supported by friends and family, but most important - our parents.

THANK YOU FOR SHARING YOUR LOVE OVER THE YEARS!

**LOOK OUT WORLD

CONGRATULATIONS
on fulfilling your
LIFELONG DREAM!

*Forever loving our Bright Spot,
Mom, Randy, and Phillip*

Emily Chaia Morganstein -

You've learned to play from friends, family, and from listening to your Self. All who love you think you have a sound-of-angels laugh!

When times are hard and you're discouraged, think of those who played with you, and now live, love, and laugh with you even from a distance. Te amo, Querida. **Mom**

Andrew,

CONGRATULATIONS
on a job well done.

Love Mom and Dad

Taryn Sabia,

*May you always
experience suc-
cess. You are
masterful at
what you do and
who you are.*

*You have
touched lives with a heart that's
both joyful and wise. Proudly we
congratulate you. You are the
sunshine of our lives.*

All of our love,
Mom, Dad, Matt, Pop & Gram,
and the Nutters

Your work is to discover your world and then with all your heart give yourself to it.

The reflections of the curtains
of the long conversations
That is the coat upon the silken dress
That is the darkness of your mouth.
Entrusting the necklace of roses
That prick the glistening dreams
and spread their color
In the hollow glasses of our hearts
Where the wine is drained
and brought from the open words
into this silken silence.

These crushed roses,
They are the colors
within the droplets upon your neck.
Now the fall of streams is slowing,
to only droplets.
The chilled draught of flowered berries,
The smiles in the dreams of our thoughts
trickling from the old oak barrels
to drain the sound
to this. To us.
The silken silence.

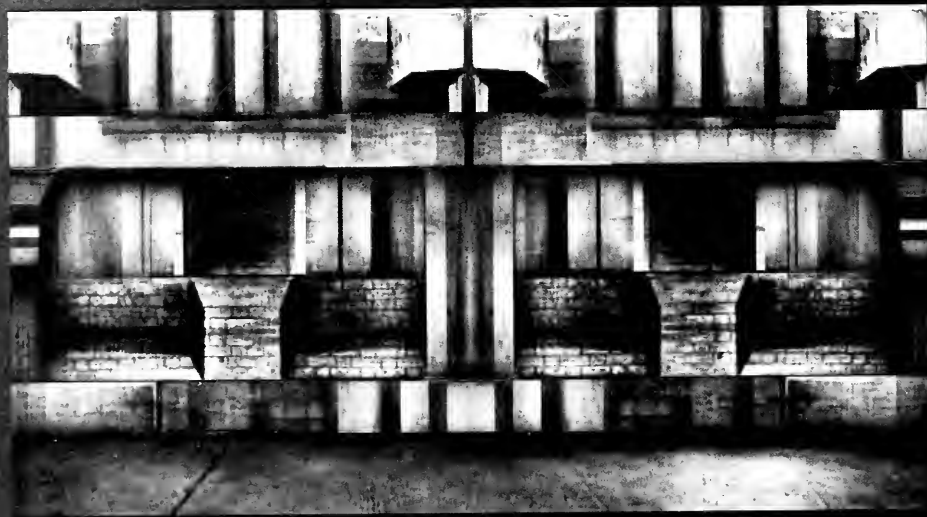

Faithless the night
the infecting twilight
whereupon it turns,
the eyes expanding
in the shadow streams
flowing tears
speaking in endless flights.

Through these nights
through the guides
to the paths of currents
and then to clarity
the dark sea
that awakens now in this view
from this parody
the dark motions of waves
writhing
swirling
among this
that is
the darkness

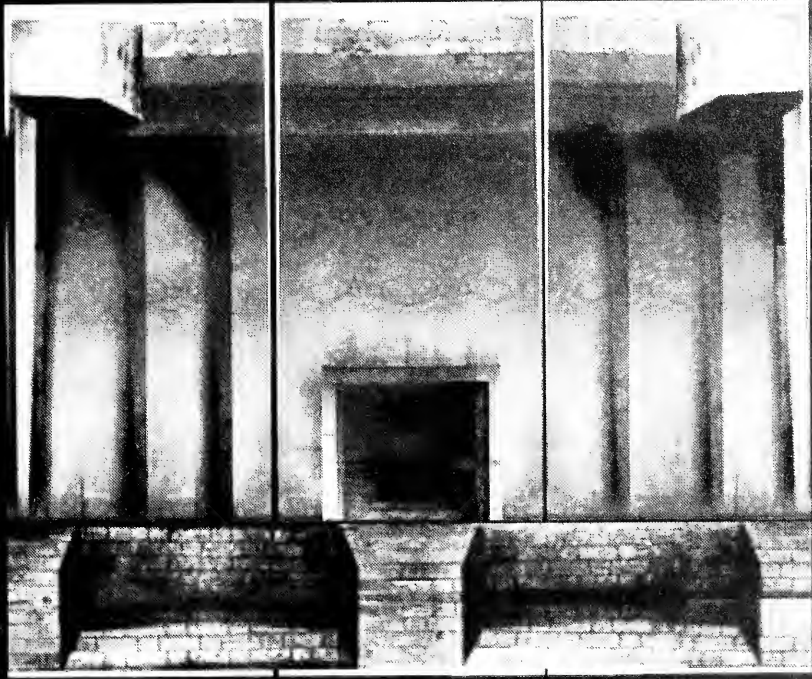

The marks of darkness
Weaving and floating in the surface of this black lake
Snake shadows slithering in a fowl mesh
Gripping downward
Grief in downward currents
The notes of water splashes
And of the cure
My last screams
As my face is washed clean
I am shot by the bow string
As I move higher into the sky

And the true drop of blood falls
Upon the tongue of deception
And I Hear it - the sound of my heart
Dripping through the wound in my thigh

I take no more visions
From the pain of understanding
And I close my eyes.

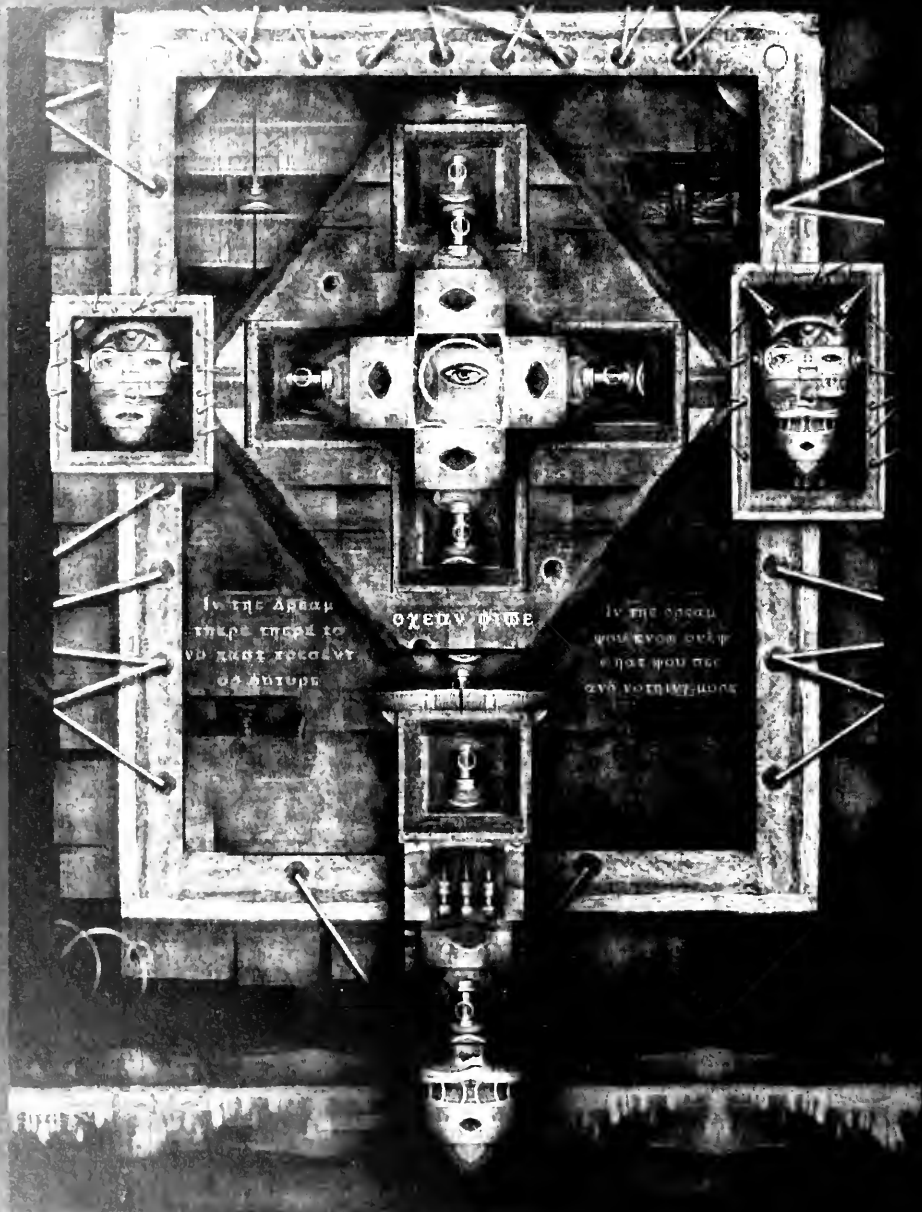

whisper me
the sounds of sweet smiles
that float me up into the sky
flooding heavenly light
smoothing the raindrops
of pearly white
The bright sun,
glittering into illusions -
the pleasures merged into colors
falling to the glittering sea,
in mirages of spectral rainbows

your smiles
upon stretches of white sands
where the shade lies clinging to the palms
Tides splashing mists of sparkles
the first rhythms of the morning clinging to the sky
the slow swings from the bright sun
dancing with clouds on the edges of visibility
as the floods of light whisper me of your eyes

Hitting Ground

Ever feel like you are falling and don't know how to stop? Eventually you will come to a stop; whether it be at the end of your years at Eckerd or because of dramatic changes in your life. Once you hit the ground you will be looking at life with a new perspective. Things will be clear and concise; it will all make sense. So while you fall into place, keep in mind everything will slow down and you'll bounce right back up.

Hullabaloo

| 2001 |

colophone

The 2001 Hullabaloo, volume VI, was created by a student staff and printed by Taylor Publishing Company in Dallas, Texas. The 168 pages were submitted on disk using Macintosh versions of Adobe PageMaker 6.5, Adobe PhotoShop 4.0, and Microsoft Word 98. Steve Ferguson served as publishing representative and Robert Porter as account executive.

The theme, *Falling into Place*, was developed by Co-Editors-in-Chief Jessie Green, Brian Redar, and Andrew Richardson with the support of the entire staff. The opening and closing sections, along with the section dividers, were designed by Brian Redar. The Table of Contents page was designed by Andrew Richardson. The sections were individually designed by Doug Borgman, Tamara Charron, Kyle Markham, Brian Redar, and Andrew Richardson.

Pages within the Activities section were offered to every club and organization associated with the Eckerd College Organization of Students free of charge.

All copy was written by members of the staff and volunteer student writers. All copy was edited by the copy editor and editors-in-chief. Unfortunately not all errors were caught, and we apologize for this inconvenience.

Unless otherwise noted, all photographs were taken by the Hullabaloo staff. Portraits in the Album section were taken by Portrait Imaging Corporation of Port Richey, FL. Portraits were also

taken by staff member Amanda Howey. Group photos throughout the book were taken by the staff or provided by the group.

All photographs in the book were developed by Wal-Mart, K-Mart, Eckerd, and Clark Color Labs.

Independently designed by Eric Fernandez, the cover was created using Adobe PhotoShop 4.0. Primary type styles in the book include - Freehand Script for the opening and closing, Times for the theme logo, **Spumoni LP** for all captions, and **Brandy Script** for the Student Life headlines. Within each section, the editor was responsible for type styles.

Editorial content does not necessarily reflect the views of the college. The co-editors-in-chief are not responsible for any inaccurate information presented within.

The Hullabaloo is distributed on campus in the fall of each year to all students who purchased a book. Prices ranged from \$30-\$40, with 415 books ordered.

The Hullabaloo office is located in Brown Hall, room 121. The staff can be contacted at 4200 54th Avenue South, St. Petersburg, FL 33711; phone 727/864-8924; fax 727/864-8588; yearbook@eckerd.edu.
